Sebastian **Bate**

Medical Statistician

sebastiangbate@gmail.com 0000-0002-2218-503X sgbstats /sebastianbate

Experience

Research Technical Professional

Manchester Metropolitan University *2026-*

- I am the statistician for the MMU's Centre for Digital Data Research
- I am responsible for the statistics across the Centre's research projects, including the design, analysis and reporting of results (including Psychology, Economics and Sports Science).
- I am the named statistician on multiple grant applications worth up to EUR 3m.
- I have written R packages to support the analysis of data from multiple and unusual sources.
- I have contributed to IT procurement (including AI and source code management).
- I was 3rd at the 2026 MMU Festival of Research in the Research Support Category.

Junior Medical Statistician

Manchester University NHS Foundation Trust *2021-2026*

- I was involved in multiple studies and lead on statistical design and analysis from concept through to dissemination.
- I supported all levels of researchers from undergraduate and postgraduate students, through to clinical academics and consultants.
- I contributed to successful grant applications as a co-investigator and lead statistician (NIHR152516).
- I was responsible for reviewing the design, statistical accuracy and overall viability of Trust-sponsored research protocols prior to ethics submission in collaboration with senior statisticians.
- I presented my research at conferences both to technical and clinical audiences [NIHR Statistics Group Conference, 2023 (best e-poster); NHS R Community Conference, 2022; Translation Manchester, 2022 (People's Choice award)], NIHR Statistics Group Conference, 2024 [3rd place].
- I had multiple collaborations with clinicians across the whole of MFT, The University of Manchester, and other trusts.
- I gave multiple talks on statistics for critical appraisal across The Trust to the prestigious Specialist Foundation Program, junior doctors and level 7+ clinical practitioners.
- I wrote teaching materials for improving statistical literacy among clinicians.
- I gave guest lectures to undergraduates and apprentices on data literacy at Manchester Metropolitan University (Digital Marketer Degree Apprenticeship, and UG Marketing, Business & Marketing and Advertising & Brand Communications courses).

Statistician

IQVIA *2019-2021*

- I worked with senior biostatistics staff on the evaluation, interpretation, and reporting of study results, including writing the analysis data reviewer's guide for one study.
- I quality controlled regulatory documents including CSRs, summaries of clinical efficacy and safety, prescribing information, and FDA briefing documents for large pivotal studies.
- I assisted in developing study analysis plans, including sample size calculations and mock TFLs across multiple studies.
- I gained experience in applying the principles in ICH E6 (GCP), E9 (Statistics), E9R1 (Estimands).

Education

MMath Mathematics and Statistics

University of Manchester

1st Class *2019*

Skills

Areas of interest

Prognostic modeling; Meta-analysis

Languages and certifications

R, inc. Tidyverse (Expert); SPSS (Proficient); SAS (Was proficient, now rusty); NIHR Good Clinical/ Statistical Practice; Python (Can debug something but don't like writing it); Quarto (Getting better)

Personal

I have run a 3:03:45 marathon; I have an Erdos number of 6; This CV was written in Quarto
